

# User Acceptance

Wednesday, 4 July 2018 8:10 PM

The following test was outlined in the 'Testing Document'.

## Tasks

- ☒ Login using client login details
- ☒ Add a patient
- ☒ Fill out information
- ☒ Add a profile image
- ☒ Add three visits for the patient
- ☒ Add an appropriate number of images for each
- ☒ Create a new patient
- ☒ Add or do not add a profile image, information, visits etc... with liberty.
- ☒ Remove some visits from the first patient
- ☒ Access and edit other visits
- ☒ Change the profile image of the first patient
- ☒ Edit the information of the first patient
- ☒ Remove the first patient

## Errors

Task	Bug/Error encountered	Screenshot of Bug/Error	Fixed/Not Yet Fixed	Notes
Edit visits	It is illegal to retrospectively edit visits		Fixed	This was not mentioned in the definition meetings and will therefore be addressed after the initial project is complete.
